US Citizen | Eagle Scout

Education

University of Virginia, Charlottesville, VA

August 2021 - May 2025

Bachelor of Arts in Computer Science, Minor in History

- 4.0 in-major GPA
- 3.95 cumulative GPA

Work Experience

Yext, Washington, DC

May 2024 - August 2024

Software Engineer Intern

- Spearheaded rework of React front-end, created and documented new open source library and custom components on GitHub, enabled completion of 8+ client-requested features demoed company-wide, and to external stakeholders
- Collaborated with PM, UX lead, and three 10-person teams to deliver production Go and Typescript code for enterprise clients, resulting in an August alpha release of the new Yext Visual Editor product
- Revamped GitHub web-hook event handler and Kafka consumer written in Go to resolve 12+ Sentry errors in live services, exposed a longstanding configuration issue with the company's GCP-hosted Docker images

University of Virginia, Charlottesville, VA

January 2024 - May 2024

Undergraduate Teaching Assistant : CS 3240

- Led 2 teams of 6 students throughout semester as a product manager in an Agile framework. Guided students through setting up full stack Python web apps using Django and PostgreSQL, as well as how to operate within a team for 4+ hours each week. Graded 400+ student assignments regarding Software Engineering best practices

Mathesis Technology, Charlottesville, VA

May 2023 - September 2023

Full Stack Web Development Intern

- Developed React math learning web application hosted on Firebase and integrated with GitHub for CI/CD pipelines. Impacted high-level decisions alongside company founder, to deliver an application piloted in select UVA classes, serving 100+ students
- Leveraged complex front-end libraries to build a dynamic UI. Extended the functionality of Cytoscape.js to design a graphical interface and Remark to allow for editing Markdown and LaTeX expressions within the application

University of Virginia, Charlottesville, VA

January 2023 - May 2023

Undergraduate Teaching Assistant - Lab Lead : CS 2130

- Facilitated weekly labs of 85 students, lead 4 other TAs in answering questions related to low-level computer architecture. Taught students how to use Git and develop programs with Assembly and C for 5+ hours/week

Technical Skills

- Languages: Java, Typescript/Javascript, Golang, C, Python, SQL, HTML, CSS, x86-64 Assembly
- Tools and Technologies: React, NodeJS, Git, Docker, Kafka, Apache, MongoDB, Django, gRPC, Jira, npm, Bazel, Chakra, Saas UI, Nomad, Gerrit, GCP, Kubernetes

Projects

The Daily Bugle News - NodeJS

November 2024 - Present

- Created a full stack news web app utilizing a NodeJS backend fully containerized via Docker and Kubernetes with separate micro-services connected via Apache and handling data with MongoDB, front end written with pure Javascript, HTML, and CSS, user permissions handled via browser cookies and custom auth middleware

Run This Town - Python

August 2023 - December 2023

- Collaborated with an Agile-based team of 5 to build a full stack Python application with Django to better enable runners to create/share routes at UVA. Hosted the backend on Heroku with PostgreSQL for user data, AWS S3 buckets for large files, and GitHub actions for CI/CD. Facilitated a dynamic user experience as the UX lead by incorporating the external Google Maps API

Leadership & Service

Chi Psi Fraternity, Charlottesville, VA

August 2022 - Present

Philanthropy Chair

- Organized and executed large philanthropy event, bringing in over 5000 dollars for the Gordie center to prevent hazing and alcohol abuse - kickstarted annual tradition highlighted at the Gordie center reception
- Led philanthropy committee in collaboration with executive board, overseeing group of 65 students to accrue over 200 collective service hours in first semester as the chairman
